

A race

A, B, and C run a 100 meter race, each running at a uniform speed throughout the race.

A race

A, B, and C run a 100 meter race, each running at a uniform speed throughout the race.

If A beats B by 10 meters and B beats C by 10 meters,

A race

A, B, and C run a 100 meter race, each running at a uniform speed throughout the race.

If A beats B by 10 meters and B beats C by 10 meters, by how much does A beat C?

A race

A, B, and C run a 100 meter race, each running at a uniform speed throughout the race.

If A beats B by 10 meters and B beats C by 10 meters, by how much does A beat C?

Hint: The answer is not 20.

The Stockmarket

The stockmarket increases by 10% in one year

The Stockmarket

The stockmarket increases by 10% in one year and then decreases by 10% the next year.

The Stockmarket

The stockmarket increases by 10% in one year and then decreases by 10% the next year.

If you had one thousand dollars invested, how much is it worth after the two years?

The Stockmarket

The stockmarket increases by 10% in one year and then decreases by 10% the next year.

If you had one thousand dollars invested, how much is it worth after the two years?

Hint: The answer is not 1000.

Driving into the city

The distance from Chicago to Dekalb is 60 miles.

Driving into the city

The distance from Chicago to Dekalb is 60 miles.
If you drive into Chicago at a constant speed of 60
mph

Driving into the city

The distance from Chicago to Dekalb is 60 miles.
If you drive into Chicago at a constant speed of 60 mph and return to DeKalb at a constant speed of 50 mph,

Driving into the city

The distance from Chicago to Dekalb is 60 miles.
If you drive into Chicago at a constant speed of 60 mph and return to DeKalb at a constant speed of 50 mph,
what was your average speed for the roundtrip?

Driving into the city

The distance from Chicago to Dekalb is 60 miles.
If you drive into Chicago at a constant speed of 60 mph and return to DeKalb at a constant speed of 50 mph,
what was your average speed for the roundtrip?
Hint: The answer is not 55.

Making Change

What is the largest amount of money you can have in coins and still not be able to make change for a dollar?

Making Change

What is the largest amount of money you can have in coins and still not be able to make change for a dollar?
Hint: The answer is not 99 cents.
